### DETAILED ACTION

This Office action is in response to the amendment filed August 26, 2002 in which claims 1-7 and 9-12 were amended and claims 8 and 13-34 were canceled.

The election/restriction is made FINAL in view of the amendment canceling the claims of Group II, the nonelected invention.

The rejection of claims 6 and 7 under 35 USC 112, second paragraph, is withdrawn in view of the amendment to the claims.

The indicated allowability of the claims is withdrawn in view of the newly discovered reference(s) to Donly. Rejections based on the newly cited reference(s) follow.

### ***Claim Rejections - 35 USC § 102***

1 The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-7, 9 and 11-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Suzuki (4,182,828<sup>h</sup>).

Suzuki teaches silanes substantially as claimed in the present invention. Suzuki anticipates the claims of the present invention when R is alkyl, aryl or alkoxy and when Q<sub>1</sub>-Q<sub>3</sub> are alkyl (see col. 1, lines 42-58). Suzuki teaches a precursor solution wherein

Art Unit: 1714

the silanes are prepared in a hydrocarbon solvent, namely benzene (see col. 3, lines 46-53, col. 4, lines 55-66).

Accordingly, Suzuki teaching all the material limitations of the claims anticipates the claims.

***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 10 is rejected under 35 U.S.C. 103(a) as being unpatentable over Suzuki further in view of Donly (4,147,556) .

Suzuki teaches the limitations of the claims other than that the solvent is octane. However, Donly teaches that benzene and octane are art recognized equivalent solvents (see col. 3, line 65 through col. 4, lines 1-9).

It would have been obvious to one of ordinary skill in the art to have prepared the solution with octane as the solvent because Donly teaches that benzene and octane are equivalent for the purpose of preparing a solvent solution.
